Company Profile
FULL INFORMATION

www.att-bd.com

Managing Director

ENGR. MEHBOOB KABIR: Managing Director of ATT, a Computer System Engineer, graduated from Mehran Engineering University, Pakistan. Since 1998 he is performing the role of Managing Director of ATT. In his role as a Managing Director ATT's business strategies, Strategic alliances and investor relations are successful. Under direction and supervision of Mr. Kabir ATT has grown rapidly in various business sectors like Electronic Toll Management System, Weigh Scale (100 Ton Weigh Bridge, Weigh in Motion), Human and Vehicle Access Control System, Shipping, Ship Rescue, Constructions (Bridge, Road, High Rise Building) including Security System.

He was the elected member for Operational Committee of Bangladesh Cargo Vessel Owners Association for 3 times as well as Joint Secretary.

His life style is very simple and very much cordial to general people and employees. This is the key of his success.

The Team – Chairman & Directors

DR. SIFAT FARHANA NAHID: DMD of ATT, M.B.B.S in Dhaka National Medical College & Hospital, at 2003. Director of ATT has been performing her duty as a key person of Public Relation Division and Finance Division. Mrs. Sifat is well prepared for responsibilities as Controller which includes the preparation of financial forecasts and statements for corporate operations, insuring the company Assets, filling financial statements.

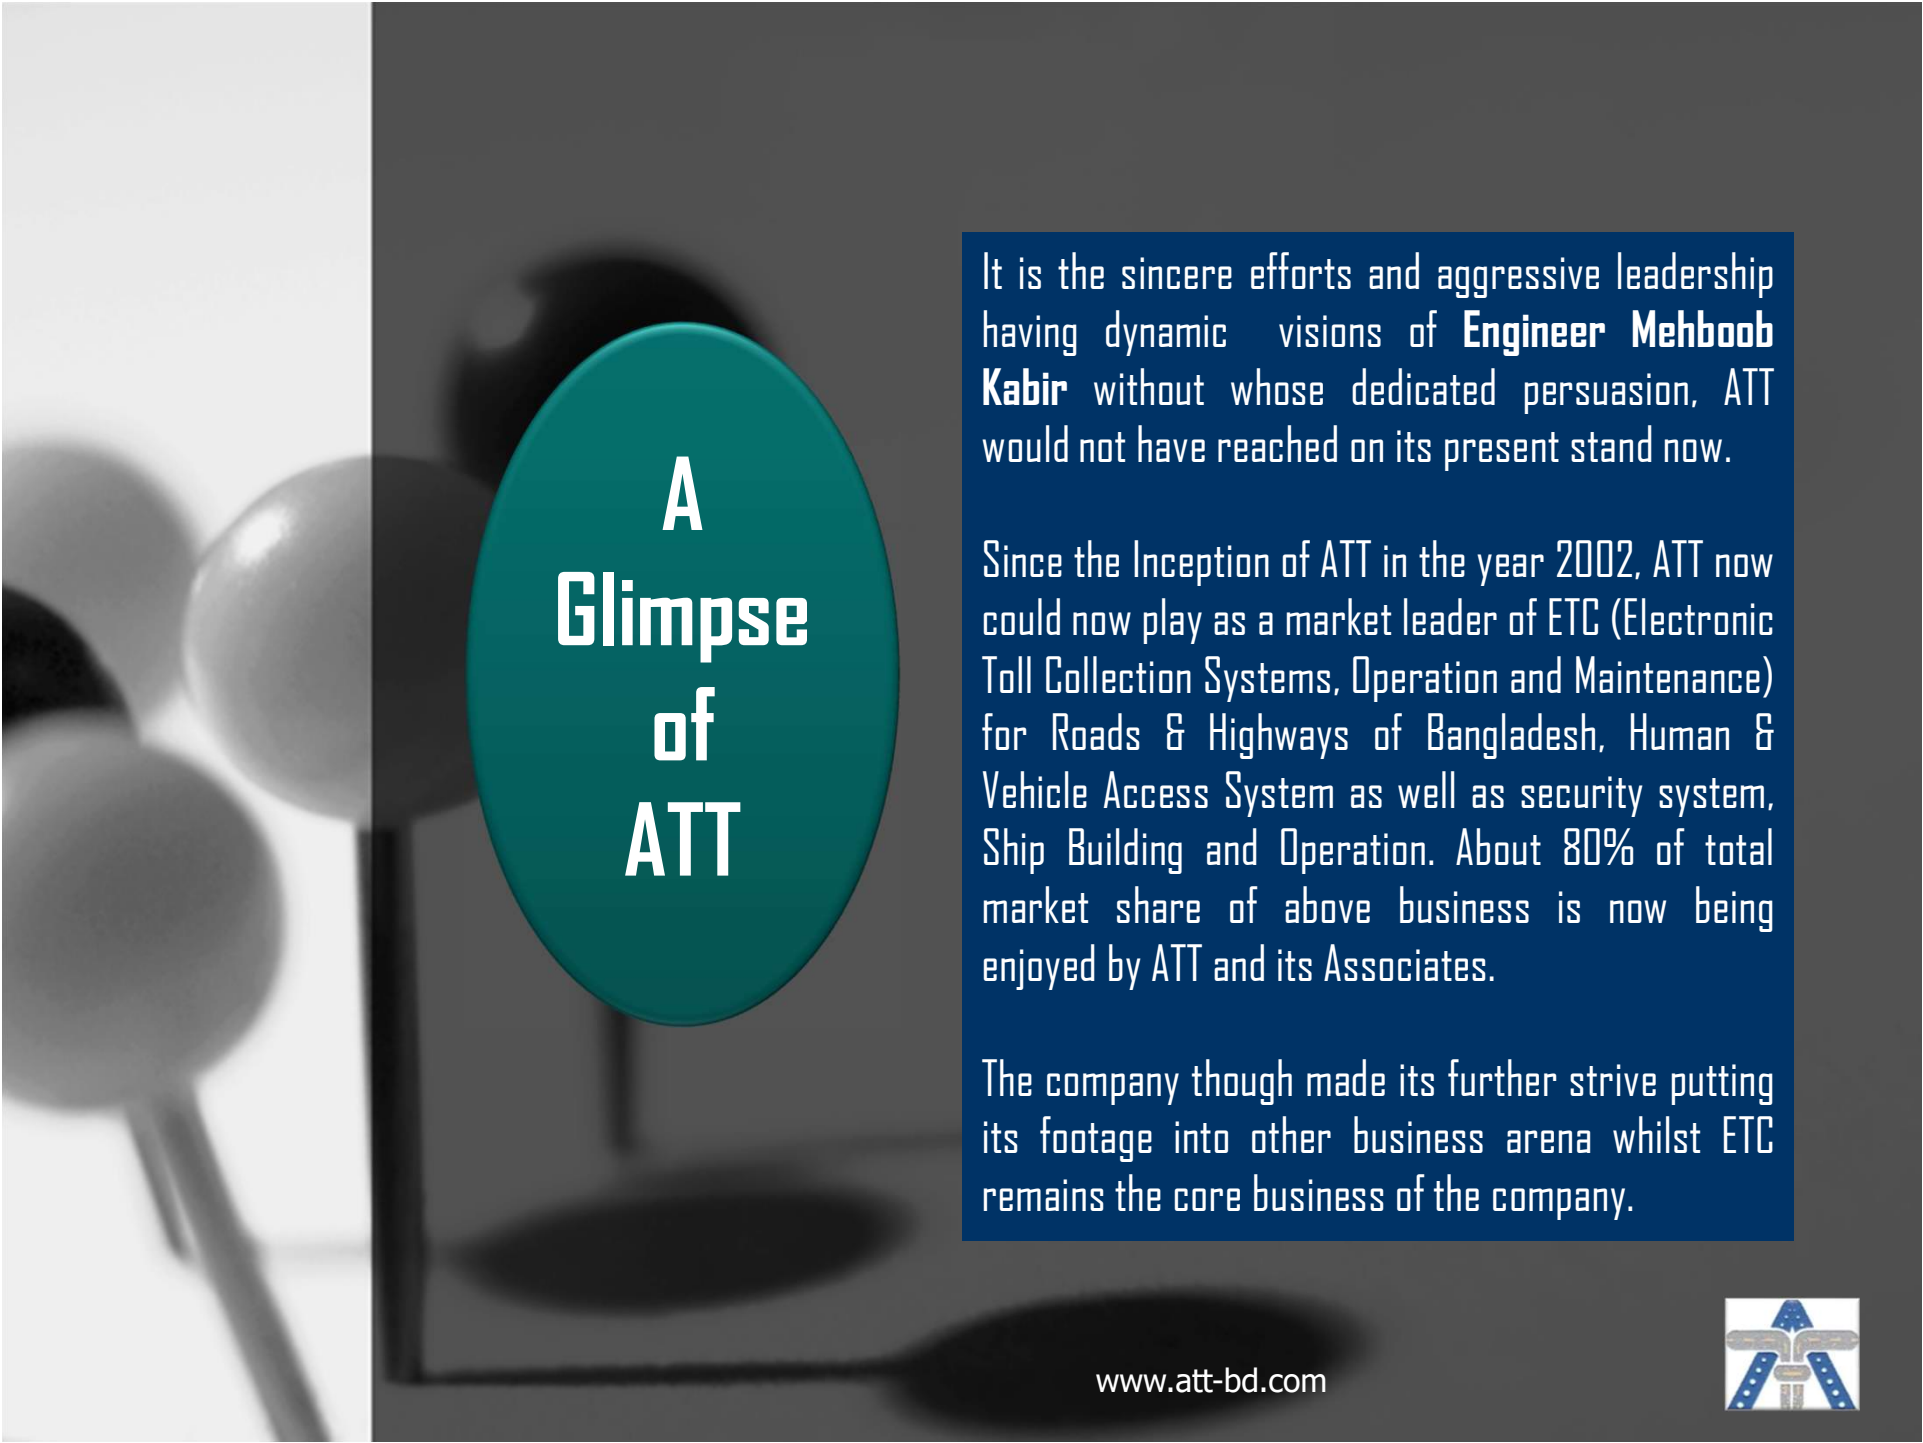

MD. MASOOD KARIM: CEO of ATT, has been with ATT since 2002 as a director of Toll System Development Division. He earned M.B.A from University of Technology, Sydney. Major in marketing and Information Technology. In his current role, Mr. Karim manages a team of professionals involved in Bangladesh Markets and International Market for Distribution.

MD. SHAFAT KADER SIDDIKY: Director Business Development, having portfolio of Business Development of the Company joined ATT in the year 2006. Mr. Siddiky is a MBA (Master of Business Administration) from UK and completed his BBA from Pakistan. Out of his capacity, Mr. Siddiky is managing the company's overall Business Development Issues of various department concerning both local and International.

A Glimpse of ATT

It is the sincere efforts and aggressive leadership having dynamic visions of **Engineer Mehboob Kabir** without whose dedicated persuasion, ATT would not have reached on its present stand now.

Since the Inception of ATT in the year 2002, ATT now could now play as a market leader of ETC (Electronic Toll Collection Systems, Operation and Maintenance) for Roads & Highways of Bangladesh, Human & Vehicle Access System as well as security system, Ship Building and Operation. About 80% of total market share of above business is now being enjoyed by ATT and its Associates.

The company though made its further strive putting its footage into other business arena whilst ETC remains the core business of the company.

Our Missions

- To hold the leadership in Bangladesh by means of continuous strive in offering quality management for Operation & Maintenance of ETC for Roads & Highways.
- To become the market leader for Highways Systems Technology development in Bangladesh
- To provide proper security system all over Bangladesh

Our Vision

- In a world where complexity increasingly touches every aspect of our daily lives, we will lead in bringing sense and simplicity to people
